## Summary

Hello! My name is Azat Farmanyany, and I am a developer with a degree in Information Systems and Technologies, which I obtained in 2023 from Samtskhe-Javakheti State University. Since March 2024, I have been working at **Background Digital**, where I develop web applications for construction complexes such as [River House](<https://river-house.ru/>), [Malahovka House](<https://malahovkahouse.ru/>), and [3 Red](<https://3-red.com>). I use Angular 2+, HTML5, CSS3, SCSS, Node.js, and Express to create intuitive and efficient interfaces, while testing with Jest/Karma/Jasmine helps maintain high code quality.

Before this, I worked at **CyberiaSoft** for 1 year and 3 months, where I improved web store management systems. I used HTML, CSS, SCSS, JavaScript, TypeScript, and Angular, and worked with GitLab and REST API, implementing responsive design methods to enhance user satisfaction.

At **GeoAlphaSolution**, I made significant contributions to projects such as [FairContent.media](<https://www.faircontent.media/home>) and [Swiftness](<http://www.swiftness.co.il/>). My knowledge of HTML, CSS, SCSS, JavaScript, TypeScript, and Angular helped improve interfaces and work efficiently on projects across various fields, maintaining high standards of innovation.

My career began at **Emap**, where I mastered Front-End through an intensive RsSchool course and successfully applied the knowledge in practice, earning certification. At **Apacer Technology Inc.** and **Bet888win**, I worked as a graphic designer, creating visually captivating advertising banners and adapting them for various social platforms.

I am fluent in Armenian, Georgian, Russian, and English, which allows me to communicate effectively and work in multilingual and international teams. My creativity, technical skills, and ability to quickly adapt to new challenges make me a valuable partner for any project. I always strive for excellence and am ready to use my knowledge to achieve outstanding results.

## Skill Highlights

- **Frontend Development:** Expertise in JavaScript, TypeScript, and Angular (2+). Experienced in creating intuitive and high-performance web applications using HTML5, CSS3, and SCSS.
- **Testing and Quality Assurance:** Proficient in using Jest, Karma, and Jasmine for testing and maintaining high code quality.
- **Fullstack Development:** Knowledgeable in both frontend and backend technologies, including Node.js and Express, for building comprehensive solutions.
- **Version Control and Collaboration:** Experienced with Git and GitHub for version control and effective team collaboration.
- **REST API Integration:** Skilled in working with REST APIs and integrating data exchange between frontend and backend systems.
- **Adaptability and Continuous Learning:** Ability to quickly learn new technologies and stay updated with industry trends for innovative outcomes.

## ● Experience

### Full Stack Engineer – March 2024 – Till now

Background Digital, <https://background.digital/>

- Developed web applications using Angular 2+ for construction project websites, such as <https://river-house.ru/>, <https://malahovkahouse.ru/>, and <https://3-red.com>.
- Utilized HTML-5, CSS-3, SCSS, Jade, Swig, ES-5/6 to create efficient and user-friendly interfaces.
- Worked with major Git commands for version control.
- Additionally applied knowledge of Angular 2, Node.js, Express, Jest/Karma/Jasmine for testing and ensuring code quality.
- Maintained high performance levels using modern tools and development methodologies.
- Operated under official employment terms as per the Russian Federation Labor Code, with a flexible schedule and remote work options.

### Angular Developer – January 2023 – March 2024

CyberiaSoft, <https://www.cyberiasoft.com/>

- Proficient in HTML, CSS, SCSS, JavaScript, TypeScript, and Angular, responsible for developing and enhancing web-based store management systems.
- Collaborated with cross-functional teams to ensure compliance with business requirements, utilizing GitLab for version control and integrating REST APIs for data exchange.
- Employed DevExtreme and Frontend JS from DevExtreme to create an interactive and visually appealing user interface, applying RxJS and JSON for efficient data processing.
- Implemented responsive design methods to ensure optimal performance on various devices, enhancing user satisfaction.
- Followed Agile methodology for efficient feature delivery, using VS Code as the development environment and DevExpress for additional tools and libraries.
- Conducted testing and optimization to ensure the quality and performance of systems.
- Provided technical support and training to end users, ensuring their effective utilization of web-based store management systems.
- Stayed abreast of industry trends for continuous system improvement and maintaining an innovative approach.

### Angular Developer – June 2022 – May 2023

GeoAlphaSolution, <https://gealphasolutions.com/>

- Contributed significantly to the development of two distinct projects: 1) FairContent.media: Played a key role in creating the online marketplace FairContent.media, enabling users to buy and sell various goods, including books, videos, music, and documents. [Website: <https://www.faircontent.media/home>] 2) Swiftness: Led efforts in developing Swiftness, a digital platform revolutionizing the pension savings market. [Website: <http://www.swiftness.co.il/>]
- Utilized skills in HTML, CSS, SCSS, JavaScript, TypeScript, and Angular to create user-friendly and responsive interfaces for both projects, significantly enhancing the overall user experience.
- Collaborated closely with interdisciplinary teams, ensuring alignment with project goals and business requirements. Used GitHub for version control and REST API integration for efficient data exchange, harnessing the power of RxJS and JSON for seamless data processing.
- Demonstrated adaptability, successfully working on diverse projects in various industries, showcasing a flexible skill set and the ability to learn and adapt quickly to changing conditions.

- Maintained a high level of innovation and efficiency, staying abreast of the latest trends in Angular development. Used development tools such as VS Code for smooth and productive workflows. Applied object-oriented programming (OOP) principles and ES6 functionality to create robust and maintainable code.
- Additionally, used Figma for collaborative design work and integrated VisualStudio and VS Code into the development process to ensure code quality and consistency

## **Angular Developer** – February 2022 – October 2022

**Emap - RsSchool**, <https://www.epam.com/>

- Participated in an intensive Front-End development program at Emap, RsSchool, where I mastered skills in HTML, CSS, JavaScript, TypeScript, and Angular, laying the foundation for modern web development.
- Thrived in a demanding educational environment with a high attrition rate, where only 46 out of 600 participants completed the program, demonstrating commitment and perseverance.
- Effectively applied acquired knowledge and skills in real-world projects, gaining practical experience in designing and developing user-friendly web interfaces, and received a completion certificate confirming my expertise in Front-End development.
- Utilized tools such as Figma for web design, Git and Github for version control, REST API for data integration, and RxJS for data processing. Applied JSON for data exchange, optimized code using VS Code and VisualStudio, and proficiently used Chrome DevTools for debugging and enhancing web applications.

## **Graphic Designer** – June 2019 – May 2021

**Apacer Technology Inc.**, <https://www.apacer.com/>

- Specialized in creating eye-catching advertising banners tailored specifically for social media platforms.
- Collaborated closely with marketing teams to ensure effective product messaging through visually appealing content.
- Adapted designs to meet the unique requirements of various social media platforms, optimizing their visual impact and ensuring a seamless user experience.
- Conducted A/B testing and made adjustments based on data, continually improving engagement levels and click-through rates, thereby enhancing the overall effectiveness of advertising campaigns.
- Made a significant contribution to the company's marketing efforts by crafting visually appealing and conversion-focused advertising materials for social media campaigns, utilizing design software such as Adobe Photoshop, Adobe Illustrator, and Figma.

## **Graphic Designer** – May 2018 – August 2019

**Bet888win**, <https://bet888win.net/>

- Created dynamic football-themed advertising banners specifically tailored for social media platforms to promote matches and events.
- - Collaborated closely with marketing teams to ensure the timely creation of compelling content that resonated with the target audience.
- - Utilized design skills with tools such as Adobe Photoshop, Adobe Illustrator, and Figma to craft visually appealing banners that encouraged higher user engagement.
- - Adapted and optimized designs to meet the specific requirements of various social media platforms, ensuring effective reach and engagement with the target audience.

## Education

**ANGULAR IN DEPTH COURSE, Frontend-development** - 2024

Alte University

**Bachelor of Science: Computer Information Systems** - 2023

Samtskhe-Javakheti State University

**Angular - The Complete Guide (2022 Edition)** - 2023

Udemy, Inc. - Course Author: Maximilian Schwarzmuller, Angular Development

**2022 Angular. Теория и Практика 2020. Все включено + Бонусы** - 2022

Udemy, Inc. - Course Author: Vladilen Minin, Angular Development

**All about HTML CSS JS** - 2021

YouTube channel "Фрілансер по життю" - Course Author: Zhenya Andrikanich, Frontend Development

## Certifications

**Angular (Basic) Certificate**

HackerRank, Frontend – development <https://www.hackerrank.com/certificates/3bb4899fe321>

**Angular (Intermedaite) Certificate**

HackerRank, Frontend – development <https://www.hackerrank.com/certificates/6905c3d04f00>

**JS/FE COURSE EN 2022 (JAVASCRIPT - ANGULAR)**

The Rolling Scopes School, Frontend – development <https://app.rs.school/certificate/azjkqokx>

## Skills

Front-End Development: **JavaScript, TypeScript, C++, C#, Angular, HTML, CSS, HTML5, SCSS, Sass, ES6, Frontend, REST API, JSON, API, RxJS, NGRX, DevExtreme, Ionic**

Back-End Development: **Node.js, Docker, REST**

Version Control: **Git, GitHub**

Development Tools: **VS Code, Visual Studio, Sublime, Chrome DevTools, Linux**

Design Tools: **Figma, Adobe Photoshop, Adobe Illustrator**

Programming Paradigms: **OOP**

Protocols and Data Formats: **HTTP, JSON**
