About Me

My name is Azat Farmanyan, and I am a Frontend Developer specializing in Angular. I create high-performance, user-friendly web applications with a focus on clean code, responsive design, and seamless user experiences.

I have extensive experience with various versions of Angular, from early releases to the latest versions, which allows me to adapt effectively to different project requirements. My core skills include TypeScript, JavaScript, RxJS, and SCSS, along with other preprocessors such as LESS and SASS, enabling me to build flexible and scalable interfaces.

I excel in integrating REST APIs, managing state, and optimizing application performance. I also utilize testing tools like Jest and Karma to ensure code reliability and quality. With the ability to quickly grasp project requirements, I deliver solutions that enhance business efficiency and improve user satisfaction. My dedication to continuous learning and teamwork drives success in every project I undertake.

Skill Highlights

- **Frontend Development**: Expertise in JavaScript, TypeScript, and Angular (2+). Experienced in creating intuitive and high-performance web applications using HTML5, CSS3, and SCSS.

- **Testing and Quality Assurance**: Proficient in using Jest, Karma, and Jasmine for testing and maintaining high code quality.

- **Fullstack Development**: Knowledgeable in both frontend and backend technologies, including Node.js and Express, for building comprehensive solutions.

- **Version Control and Collaboration**: Experienced with Git and GitHub/GitLab for version control and effective team collaboration.

- **REST API Integration**: Skilled in working with REST APIs and integrating data exchange between frontend and backend systems.

- **Adaptability and Continuous Learning**: Ability to quickly learn new technologies and stay updated with industry trends for innovative outcomes.

Experience

Angular Developer – October 2024 – Till now
Rick Masters, *http://rikmasters.ru/*

- Contributing to the design and development of web applications using **Angular 18**, **TypeScript**, and **RxJS**..
- Performing code refactoring to enhance performance and maintainability.
- Making architectural decisions and implementing a component-based development approach.
- Developing responsive layouts and integrating the frontend with backend systems via REST APIs.
- Collaborating closely with designers (**Figma**), QA engineers, and developers in an **Agile** (Scrum) environment.
- Actively participating in product development by proposing innovative solutions to improve the user experience.

Full Stack Engineer (Angular / NodeJS) – March 2024 – December 2024
Background Digital, *https://background.digital/*

- Developed web applications using **Angular 18** for construction project websites, such as *https://river-house.ru/*, *https://malahovkahouse.ru/*, and *https://3-red.com*.
- Utilized **HTML**-5, CSS-3, **SCSS**, **Jade**, **Swig**, **ES-5/6** to create efficient and user-friendly interfaces.
- Worked with major Git commands for version control.
- Additionally applied knowledge of **Angular** 2, **Node.js**, **Express**, **Jest/Karma/Jasmine** for testing and ensuring code quality.
- Maintained high performance levels using modern tools and development methodologies.
- Operated under official employment terms as per the Russian Federation Labor Code, with a flexible schedule and remote work options.

Angular Developer – January 2023 – March 2024
CyberiaSoft, *https://www.cyberiasoft.com/*

- Proficient in **HTML**, **CSS**, **SCSS**, **JavaScript**, **TypeScript** and **Angular 17**, responsible for developing and enhancing web-based store management systems.
- Collaborated with cross-functional teams to ensure compliance with business requirements, utilizing GitLab for version control and integrating **REST APIs** for data exchange.
- Employed **DevExtreme** and Frontend JS from **DevExtreme** to create an interactive and visually appealing user interface, applying **RxJS** and **JSON** for efficient data processing.
- Implemented responsive design methods to ensure optimal performance on various devices, enhancing user satisfaction.
- Followed Agile methodology for efficient feature delivery, using **VS Code** as the development environment and DevExpress for additional tools and libraries.
- Conducted testing and optimization to ensure the quality and performance of systems.
- Provided technical support and training to end users, ensuring their effective utilization of web-based store management systems.
- Stayed abreast of industry trends for continuous system improvement and maintaining an innovative approach.

- o Maintained a high level of innovation and efficiency, staying abreast of the latest trends in Angular development. Used development tools such as VS Code for smooth and productive workflows. Applied object-oriented programming (**OOP**) principles and **ES6** functionality to create robust and maintainable code.
- o Additionally, used Figma for collaborative design work and integrated VisualStudio and VS Code into the development process to ensure code quality and consistency

Angular Developer – June 2022 – May 2023

GeoAlphaSolution, *https://geoalphasolutions.com*

- o Contributed significantly to the development of two distinct projects: 1) FairContent.media: Played a key role in creating the online marketplace FairContent.media, enabling users to buy and sell various goods,
- o Maintained a high level of innovation and efficiency, staying abreast of the latest trends in Angular development. Used development tools such as VS Code for smooth and productive workflows. Applied object-oriented programming (OOP) principles and ES6 functionality to create robust and maintainable code.
- o Additionally, used Figma for collaborative design work and integrated VisualStudio and VS Code into the development process to ensure code quality and consistency

Angular Developer – February 2022 – October 2022

Emap - RsSchool, *https://www.epam.com/*

- o Participated in an intensive Front-End development program at Emap, RsSchool, where I mastered skills in **HTML**, **CSS**, **JavaScript**, **TypeScript** and **Angular**, laying the foundation for modern web development.
- o Thrived in a demanding educational environment with a high attrition rate, where only **46 out of 600** participants completed the program, demonstrating commitment and perseverance.
- o Effectively applied acquired knowledge and skills in real-world projects, gaining practical experience in designing and developing user-friendly web interfaces, and received a completion certificate confirming my expertise in Front-End development.
- o Utilized tools such as Figma for web design, **Git** and **Github** for version control, **REST API** for data integration, and **RxJS** for data processing. Applied **JSON** for data exchange, optimized code using **VS Code** and **VisualStudio**, and proficiently used **Chrome DevTools** for debugging and enhancing web applications.

Education

ANGULAR IN DEPTH COURSE, Frontend-development - 2024
Alte University

Bachelor of Science: Computer Information Systems - 2023
Samtskhe-Javakheti State University

Angular - The Complete Guide (2022 Edition) - 2023
Udemy, Inc. - Course Author: Maximilian Schwarzmuller, Angular Development

2022 Angular. Теория и Практика 2020. Все включено + Бонусы - 2022
Udemy, Inc. - Course Author: Vladilen Minin, Angular Development

All about HTML CSS JS - 2021
YouTube channel "Фрілансер по життю" - Course Author: Zhenya Andrikanich, Frontend Development

Skills

Front-End: Angular, Ionic, DevExtreme, HTML, CSS/SCSS/LESS, JavaScript, TypeScript, RxJS, Figma, Photoshop, Illustrator

Backend: Node.js, Express, Docker, .Net

Tools: VS Code, Visual Studio, Sublime, GIT, GitHub/GilLab, Chrome DevTools, Linux, Atlassian Jira
